Field

Five star coin pro provides user-friendly, efficient and secure crypto banking, payments and eCommerce solutions utilizing blockchain technology, underpinned by the FSCP Coin. Through machine learning algorithms, coin proof of stake issuances and FSCP holder proof of stakes, FSCP aims to provide the confidence needed for wide acceptance as a medium of exchange and furthermore, a store of value.

Transparent

FSCP will provide deep searchability, backward in time through many transaction layers, to fulfill the requirements of retrieving data stored on its blockchain.

Secure

Additionally, FSCP will prevent unauthorized parties from ascertaining the identity and patterns of behavior of any other participant by inspecting the ledger. FSCP will allow ecosystem participants to make certain details of a transaction confidential so that they cannot be accessed by anyone other than the stakeholders in the transaction.

Advantages of the FSCP

- Zero-fee Transactions for Consumers
- Privacy for Consumers
- Independence for Merchants
- KYC Enablement
- Tradeability
- Scalability
- High Transaction Speed
- High Throughput
